

LAUNDRY TRAILER

Our brand new, state-of-the art laundry trailer is a complete, turnkey laundry facility on a 53' mobile trailer, allowing for laundry services virtually anywhere.

The trailer contains a total of 24 separate onboard units: 12 washers and 12 dryers, as well as a laundry sink and on-board racks for drying and storage. By using commercial water heaters, our laundry equipment delivers advanced wash cycle and numerous temperature control and dry options. Whether your requirements are one day to one year, our laundry trailer units are equipped to handle both short and long-term needs.

- Requires 400 Amp 120/208 Volt 3 phase
- 2" NPT water inlet
- 4" Drain water outlet
- Commercial Electric Water Heater
- BARD HVAC with Humidity control
- Contains 12 washer & 12 Dryers
- Magnetic dryer vent connections for easy lint cleaning (do not have to get on ladder outside)
- Custom washer/dryer aluminum shipping cradles made to expand or contract
- Contains a Saniflo sump on the trailer belly that cranks down like a spare tire (plumbing connections in tool box)
- Contains an 8' ladder on the trailer belly in a custom holder for reaching high parts
- Contains an injection pump for on-board winterization
- Currently have a fixed stairway as shown
- Wire racks for supply storage between machines
- (1) laundry sink in the center of all machines

Deployed Resources is also pleased to offer our clients full-service, on-site fluff and fold laundry services.
