

ADA/UFAS COMPLIANT SHOWERS

Designed for field operations, our ADA/UFAS compliant showers provide basic amenities inside rugged 20' ISO containers. Each unit contains two separate facilities that have independently controlled HVAC systems, interior lighting, ventilation, sinks, smoke detectors, and privacy walls.

Both models offer a spacious interior to allow for easy wheelchair movement as well as handrail supports for additional assistance. These units are ideal for a variety of applications including military exercises, special events, and disaster relief operations.
